Kevin and Deborah,
Attached is Kevin's presentation with a video added as slide 3. There are some issues to be aware of:

Video quality is limited and will be more noticeable when on a larger screen
There is audio that starts loud – we may need to mute so we don't startle the Board and Kevin can be heard
If you can't get the video to run, it may be you need RealPlayer loaded to the equipment running the video

Deborah, I will bring it on a thumb drive, but if you have the time to load and test it, that would be a good idea.

Also, if it doesn't work in the PPT, we can load and play the video separately – also attached.

Tom

Hi Deb. Use this set instead of what I sent earlier.

-Kevin
